

TheBattery &#233;quilibre l'offre et la demande d"&#233;nergie et &#233;vite des investissements majeurs dans les infrastructures du r&#233;seau &#233;lectrique. L"&#233;nergie autoproduite peut &#234;tre vendue aux moments les ...

For those projects, Alfen is deploying its containerised BESS solution, TheBattery Elements, but the company also recently launched a new iteration of its mobile battery storage product called TheBatteryMobile, putting 720kWh of storage capacity into a ...

TheBattery &#233;quilibre l'offre et la demande d"&#233;nergie et &#233;vite des investissements majeurs dans les infrastructures du r&#233;seau &#233;lectrique. L"&#233;nergie autoproduite peut &#234;tre vendue aux moments les plus rentables et des r&#233;seaux &#233;lectriques autonomes bas&#233;s sur de l"&#233;nergie solaire ou &#233;oliennes peuvent &#234;tre mis en place.

TheBattery Mobile X is just one example of Alfen's continuous efforts to develop cutting-edge solutions that enable its customers to embrace clean and sustainable power options. With its impressive capacity, ease of use, and ...

As it has been a whole decade since we began integrating energy storage solutions, we thought we would take the opportunity to champion our success by sharing with you 10 ways in which Alfen's TheBattery is currently providing ...

2021 marks the 10th year since Alfen's first foray into battery storage solutions. What better way to mark the first decade than by getting those responsible for the technical and commercial development and delivery of the product to tell us a ...

Alfen, specialist in innovatieve energieoplossingen in heel Europa, lanceert vandaag haar vierde generatie mobile battery energy storage solution, TheBattery Mobile X&#174;. Dit product biedt tot ...

Bredenoord choose Alfen because of its proven solutions in mobile battery energy storage for many years. "Bredenoord already started using batteries more than 10 years ago. In these ...

TheBattery Connect is de module van Alfen Connect die wordt gebruikt als energiemanagementsysteem voor de energieopslagoplossing van Alfen, TheBattery. Klanten krijgen toegang tot TheBattery, draadloos en via hun eigen IT-systeem, voor alle opslagtoepassingen: handel, frequentiecontrole, peak shaving en autonome netten.

Die Energiespeicherl&#246;sungen von Alfen basieren auf zwei Hauptprodukten: TheBattery Elements und

TheBattery Mobile. Die Produkte sind für unterschiedliche Märkte und Anwendungen maßgeschneidert, basieren jedoch auf den gleichen Konstruktionsprinzipien, um optimale Leistung, Flexibilität, Modularität und Langlebigkeit zu gewährleisten.

Alfen, ein Spezialist für innovative Energiesysteme in ganz Europa, stellt heute sein mobiles Batterie-Energiespeichersystem der 4. Generation vor: TheBattery Mobile X. Es bietet bis zu ...

TheBattery equilibra la oferta y la demanda de energía, lo que ayuda a evitar grandes inversiones en infraestructuras en la red eléctrica. La energía autogenerada puede venderse en los momentos más rentables y se hacen posibles las redes eléctricas autónomas basadas en la energía solar o eólica.

Energy storage and smart grid solutions firm Alfen is deploying a 30MW/68MWh battery storage project in the Netherlands for commissioning later this year, the largest under construction in the country. The firm, which is ...

Alfen, spécialiste des solutions innovantes en matière d'énergie dans toute l'Europe, lance aujourd'hui sa quatrième génération de systèmes de stockage d'énergie sur batterie mobile : TheBattery Mobile X. Cette solution offre jusqu'à 70 % d'énergie supplémentaire (jusqu'à 720 kWh) et des fonctionnalités de sécurité améliorées dans un seul conteneur de 3 mètres ...

Alfen's TheBattery Mobile is an innovative and reliable multi-functional mobile energy storage system. Based on more than 5 years of experience and product maturation, TheBattery Mobile X is Alfen's latest and best solution capable of ...

Bredenoord choose Alfen because of its proven solutions in mobile battery energy storage for many years. "Bredenoord already started using batteries more than 10 years ago. In these years we have seen how energy storage in batteries has developed enormously, which means that we can now deploy smart multifunctional systems", says Toon Bruining ...
