

Who is Chint solar?

Chint Solar is a leading player active in project development, financing, realization and operation of solar parks.

Does Chint still make solar panels?

CHINT is a big company -- as in billions of dollars of revenue each year big. It's also diversified, which means they do more than just make solar panels. Hopefully, this increases their odds of still being around in the future to honor their solar panel warranties. The company was founded in 1984 and has around 30,000 employees.

Where are Chint solar panels made?

CHINT Solar/Astronergy produces solar panels in China and has a solar cell factory in Thailand. As far as I can tell they don't have manufacturing facilities in other countries. They did buy a factory in Germany in 2014 after Conergy ran into financial problems, but sold it this year.
