

Cocos Keeling Islands energy storage spring

Is there a fuel shortage in the Cocos Keeling Islands?

Viva Energy is responsible for the delivery of fuel to Cocos Keeling Islands, Australia's most remote community, and an unfortunate series of events late last year has led to a shortage of premium unleaded fuel on the islands. Viva Energy has been actively working on alternative supply solutions.

Who is the Cocos Keeling Islands Community Resource Centre?

EVENTS - PLEASE CONTACT US TO RSVP HERE The Cocos Keeling Islands Community Resource Centre has been operating since 2002, providing services to local businesses, residents and visitors to our wonderful Islands.

What are the Cocos Keeling Islands?

Often referred to by their full name, the Cocos Keeling Islands are the remnants of an extinct volcano. There are 27 islands in the group of which only 2 have settlements. The main island for travellers is West Island. Here you will find most of the accommodation, eateries, shops and the airport.

The Cocos (Keeling) Islands are a group of 27 islands, and are composed of 2 atolls: North Keeling, and South Keeling. South Keeling consists of 26 islands in a horseshoe formation around a large lagoon (approximately 10 km across).

Viva Energy is responsible for the delivery of fuel to Cocos Keeling Islands, Australia's most remote community, and an unfortunate series of events late last year has led to a shortage of premium unleaded fuel on the islands.

The review process identified three main storage typologies suitable for deployment in island systems: (a) storage coupled with RES within a hybrid power station, (b) centrally managed standalone storage installations, and (c) behind-the-meter storage installations.

IPS is working in innovative compressed air storage solutions, in cooperation with CTG, for storage of energy in the ground, as well as traditional options like large scale pump power storage and small scale smart hybrid batteries.

As with many small islands around the world, the Indian Ocean Territories (IOT) - comprising Christmas Island (CI) and the Cocos (Keeling) Islands (CKI) - are vulnerable to the effects of climate change. The Cocos (Keeling) Islands are a group of 27 low lying coral atolls located in the Indian Ocean approximately 2,950
