

Where are Proterra batteries made?

Our batteries are designed from the cell level up for commercial and industrial usage and have industry-leading energy density, a flexible design, and ruggedized commercial-grade housing. Designed in Proterra's Silicon Valley and manufactured in Greer, South Carolina, by the best minds in battery engineering.

Did Volvo Group buy Proterra & Proterra?

The Volvo Group has today completed the previously announced transaction whereby the Group acquired the battery business from Proterra Inc. and Proterra Operating Company Inc.

Who is the winning bidder for Proterra powered business unit?

Volvo Group has been selected as the winning bidder in an auction for the business and assets of the Proterra Powered business unit at a purchase price of USD 210M. The transaction between Proterra Inc. and Proterra Operating Company as sellers and Volvo is subject to approval by the bankruptcy court in the US.

What is the Proterra battery pack & module architecture?

The Proterra battery pack and module architecture also allows for easy separation of components for recycling purposes, allowing for 100% of aluminum used in the battery pack to be recycled.

What power does Western Australia have over the Cocos Islands?

The Act also gives Western Australian courts judicial power over the islands. The Cocos Islands remain constitutionally distinct from Western Australia, however; the power of the state to legislate for the territory is power-delegated by the federal government.

How safe is a Proterra battery?

Every Proterra battery operates with state-of-the-art safety features, including cell-level passive propagation resistance (PPR). With PPR, in the rare event of a single battery cell failure with a thermal event, the issue would not spread to neighboring battery cells.

The Volvo Group has today completed the previously announced transaction whereby the Group acquired the battery business from Proterra Inc. and Proterra Operating Company Inc. The acquisition, which was made at a purchase price of USD 210M before adjustment for inventory level at closing, includes a development center for battery modules ...

Overview Name Geography Climate Demographics History Government Economy The Cocos (Keeling) Islands (Cocos Islands Malay: Pulu Kokos [Keeling]), officially the Territory of Cocos (Keeling) Islands (/ˈkoʊkʰs/; Cocos Islands Malay: Pulu Kokos [Keeling]), are an Australian external territory in the Indian Ocean, comprising a small archipelago approximately midway between Australia and Sri Lanka and relatively close to the Indonesian island of Sumatra. The terri...

Arriving soon in North America will be Komatsu's 20-ton PC210LCE electric excavator which was first displayed at bauma 2022 in Munich. The excavator is built with lithium-ion battery technology from Proterra, and has 451 kWh of capacity - enough for up to 8 hours of operating time, depending on workload conditions.

Komatsu's new electric 20-ton machine features a power output of 123 kw and 451 kWh of battery capacity. The new electric excavator's Proterra battery system, when fully charged, reportedly enabled five to nine hours of operation in proof-of-concept tests.
