

What's happening in Western Australia's big battery projects in Collie & Kwinana?

The Western Australian government's two long-duration big battery projects in Collie and Kwinana, both south of Perth, were first unveiled in May. Today, the government announced it has awarded more than \$1 billion (USD 644 million) in battery and inverter supplier contracts for the huge storage projects.

Who owns Collie battery?

Neoen acknowledges the Wilmen Noongar people, Traditional Owners of the land on which Collie Battery will store energy. We pay our respects to their Elders past and present. Collie Battery is Neoen's first 4-hour long duration battery & its first major project in Western Australia. The project has development approval for 1 GW / 4 GWh.

Where is Collie battery?

Collie Battery is located approximately 13 km north-east of the town of Collie, 4 km north-east of the Collie Power Station in the Southwest region of Western Australia. It will connect into Western Power's new Palmer Terminal substation in the SWIS. Discover Careers in Renewable Energy!

How much power will Collie battery deliver?

This service will be delivered by Stage 2 of Collie Battery sized at 341 MW / 1,363 MWh, with the project having approval for a total of 1 GW / 4 GWh. Neoen has also provided notices to proceed to Tesla and UGL, signaling start of construction for Stage 2.

What is Collie battery Stage 1?

Collie battery stage 1. Photo: Neoen. The first stage of what will be the biggest battery in Australia has been officially switched on, ahead of schedule and less than 18 months after the start of construction, and will now get to work shifting rooftop solar output from the middle of the day to the evening peak.

How many mw / 877 MWh is a collie battery?

The project is separate to the 219 MW / 877 MWh Collie Battery, also being delivered in Collie. SCEE Electrical was awarded the \$50 million contract for switchyard works, including construction of a 330 kV switchyard, substation, and ancillary buildings and equipment to connect the battery to Western Power's network.

The Collie Battery is a proposed one-gigawatt / four-gigawatt hour Battery Energy Storage System. The project, being developed by Neoen, is to be located near Collie, WA, approximately 150 kilometres south of Perth, and will connect to the Western Electricity Market via the existing Shotts substation.

Premier Roger Cook was in Collie this morning to unveil the 80 units for one of WA's largest battery systems. Premier Roger Cook was in Collie this morning to unveil the 80 units for one of WA's largest battery systems.

... lists and projects Transaction records, directors wealth, remuneration data and network activity. ...

Synergy, a WA Government State-Owned Corporation, is developing a 500 megawatt (MW) / 2,000-megawatt hour (MWh) battery at a site in Collie. The project is separate to the 219 MW / 877 MWh Collie Battery, also being delivered in Collie.

Located at the site of Collie Power Station, a coal-fired power plant scheduled for decommissioning in 2027, the battery storage project is one of two being funded with AU\$2.3 billion (US\$1.52 billion) from the Western ...

The Collie Battery is a grid-scale battery that will connect into Western Australia's electricity grid via the transmission network. Neoen and Tesla have been long-term partners, having first worked together on the world's first big battery in South Australia and then on the Victorian Big Battery, Australia's largest big battery near Geelong.

the Collie battery project will ensure the security and reliability of WA's energy system. Credit: Synergy. Synergy has begun the installation of the first battery units at its 500MW/2 gigawatt hours (GWh) Collie battery energy ...

This service will be delivered by Stage 2 of Collie Battery sized at 341 MW / 1,363 MWh, with the project having approval for a total of 1 GW / 4 GWh. Neoen has also provided notices to proceed to Tesla and UGL, signaling start of construction for Stage 2.

The Western Australian government's two long-duration big battery projects in Collie and Kwinana, both south of Perth, were first unveiled in May. Today, the government announced it has awarded more than \$1 billion (USD 644 million) in battery and inverter supplier contracts for the huge storage projects.

Collie Battery will deliver a significant economic boost to the Shire of Collie, as part of the region's energy transition, creating over 120 construction jobs and opportunities for local suppliers. The project will have an annual community benefit-sharing program, co-designed with the local community.

In addition to the government-owned storage systems, Neoen is building a big battery project in Collie. The big batteries will be a significant energy infrastructure for the South-West's electricity grid, working towards WA's cleaner, reliable and affordable energy future.

Collie Battery is Neoen's first 4-hour long duration battery & its first major project in Western Australia. The project has development approval for 1 GW / 4 GWh. Collie Battery is currently being built in stages, two of which are currently under construction: Stage 1 is sized at 219 MW / 877 MWh Stage 2 is sized at 341 MW / 1,363 MWh

Neoen's 219MW Collie Battery Stage 1 has commenced operations in Western Australia (WA). Claimed to be

the largest battery storage facility in WA, the 877MWh battery storage facility is located near Collie, on the Wilman people's land of the Bibbulmun nation.

"The Collie Battery will be UGL's sixth BESS project in recent years, and our third for Neoen following the successful design and construction of the Victorian Big Battery and the Western Downs Battery which is currently under construction. We look forward to continuing our relationship with Neoen and Tesla through the Collie Battery ...

Synergy, a WA Government State-Owned Corporation, is developing a 500 megawatt (MW) / 2,000-megawatt hour (MWh) battery at a site in Collie. The project is separate to the 219 MW / 877 MWh Collie Battery, also being delivered in Collie. Key Dates. Sep 2023

The project involves the development of Collie Battery Stage 2 (341 MW / 1,363 MWh) located near the town of Collie, in the country of the Wilman people of the Bibbulmun nation, in the Southwest regio...

Construction has kicked off at the largest battery project in Australia to date, with a storage capacity equivalent to that of the entire country's fleet of projects under construction at the end of 2022. ... (WA) announced last week (15 March) that the construction phase has begun at Collie, a battery energy storage system (BESS) project ...
