

Gennevilliers, France - Exide Technologies () announces today the acquisition of ATEPS Nederland BV. * Investment in lithium-ion based energy storage solutions * Exploiting synergies of an innovative start-up combined with the strong positioning of a market leader for batteries and energy storage solutions

Investment in lithium-ion based energy storage solutions Exploiting synergies of an innovative start-up combined with the strong positioning of a market leader for batteries and ener

October 7, 2021: ATEPS Nederland this week announced that it had been acquired by Exide Technologies, the European arm of the former US battery giant, on October 1, 2021. ATEPS, founded in 2014, is a developer and manufacturer of modular energy storage systems.

Deploying grid-connected energy storage systems creates challenges for users and manufacturers alike. Without clear expectations and standards, it is difficult to prove the system operates correctly and safely. ATEPS had the documentation of its battery container verified by appropriate methods to comply with a set of the recommendations of ...

ATEPS develops, builds and delivers energy storage systems (ESS) to transition from fossil energy over to renewables. Its solutions contribute to the global goal to make sustainable energy usable across the board by 2050 and ...
