

What is axistorage Li SV2?

The energy storage expert for residential and e-mobility The AXIStorage Li SV2 is a modular stackable high-voltage energy storage system, based on Lithium iron phosphate battery technology (LFP). Due to its modular stacking design and the protection class IP55, it is the ideal energy storage system for residential.

What is the difference between axistorage SV2 and SV1?

In practice, this means that the Axistorage SV2 is more suitable for smaller systems or lower storage requirements, and the Axistorage SV1 for higher requirements. In both systems, the battery is composed of a Battery Management System and several energypacks, each with a storage capacity of 3.37 kWh.

How many storage modules can be installed in the axitec Li SV1 and SV2?

A maximum of 7 storage modules can be installed in the Li SV1, and a maximum of 4 in the Li SV2. The batteries from Axitec in the Krannich webshop. WITH WHICH INVERTERS ARE THE AXITEC STORAGE UNITS COMPATIBLE? The two Axitec storage units Axistorage Li SV1 and SV2 are compatible with more than 100 inverters.

Which axitec storage units are compatible with more than 100 inverters?

The two storage units from Axitec - Axistorage Li SV1 and Axistorage Li SV2 - are compatible to more than 100 inverters and can therefore be used in numerous PV systems. The most important info and key data. With which inverters are the Axitec storage units compatible? Both storage solutions, Li SV1 and Li SV2, are similar in design.

The two Axitec storage units Axistorage Li SV1 and SV2 are compatible with more than 100 inverters. These include inverters from SMA, Sungrow, GoodWe, Kostal or Sofar. They are therefore ideally suited as a standard solution for retrofitting many different PV systems with a storage unit.

Wir haben eine 11,2 kWp Anlage auf dem Dach mit einem SH10RT WR von Sungrow. WIr würden das
 System gerne um einen Speicher erweitern, die gängste Lösung wäre dabei die SBR096
 von Sungrow. Jetzt bin ich jedoch auch die Axistorage Li SV2 gestoßen, die ich zum ähnlichen
 Preis bekommen würde.
