

Does Colombia need international support to implement the Just Energy Transition?

Commenting on the agreement, Colombian Minister of Mines and Energy, Irene Vélez Torres said: "To implement the Just Energy Transition, Colombia needs international support.

Will Colombia support a green energy transition?

The joint Declaration of Intent between the Ministry of Mines and Energy of the Republic of Colombia and the European Investment Bank, will support just energy transition in Colombia, with a focus on green hydrogen and other green technologies.

What is Colombia's energy transition?

According to the World Economic Forum's Energy Transition Index 2020, Colombia has made the greatest progress in the renewable energy area in Latin America and the Caribbean. In addition, Colombia has received two important international recognitions because of its commitment to energy transition.

What is Colombia's energy policy?

Since August 2022, Colombia's energy policy under President Gustavo Petro has called for increased development of renewable energy sources and reduced economic dependence on fossil fuels. The MME (Ministerio de Minas y Energía), formed in 1974, oversees Colombia's mining industry, mineral industry, and electricity sector.

Is Colombia a good country for hydroelectric power?

With high rainfall rates and a topography favorable for hydroelectric power projects, Colombia has developed hydro as its primary source of electricity, comprising two-thirds of installed capacity and electrical generation in 2020.

Why does Colombia have a poor energy sector?

Lack of accountability in the Colombian energy sector allows for problematic outcomes. The gaseous nature of coal deposits in Colombia has caused a large number of occupational accidents and deaths. Poor ventilation, poor worker training, and inadequate regulation are all factors in methane-related accidents.

Colombia will announce its US\$40 billion energy transition plan just a few weeks before the start of the COP16 biodiversity summit in Cali. Credit: Presidency of Colombia. Colombia will announce next week a US\$40 billion investment to finance its planned transition from fossil fuels to clean energy.
