

Are CommScope outdoor distribution cabinets FTTH compatible?

CommScope outdoor fiber distribution cabinets are uniquely adaptable to almost any FTTH need, and we're eager to work with you to build effective solutions, both for today and for the future.

What makes CommScope unique?

CommScope's outdoor integrated cabinet solutions bring together a wide range of capabilities that reflect CommScope's industry experience, technical expertise and global resources. The highly integrated, modular and open design is a result of 40+ years of customer input, innovative engineering and R&D effort.

What products does CommScope offer?

CommScope offers a complete line of fiber cable assemblies, to support a wide variety of applications. OMX and FEC products offer swift access to entrance facility connections using convenient trays or drawers. For smaller facilities, our BUDI wall boxes offer a compact solution. Ready your network for the High Speed Migration.

Is CommScope a certified company?

CommScope is committed to the highest standards of business integrity and environmental sustainability, with a number of CommScope's facilities across the globe certified in accordance with international standards, including ISO 9001, TL 9000, and ISO 14001.

Who makes the best pre-assembled outdoor cabinets?

With our wide product range of cabinets for fiber optic, and copper distribution, CommScope offers the best plug and play pre-assembled outdoor cabinets to individual custom needs. Always considering the real cost of deployment challenges with the overall OPEX as a key business principle.

What is a medium outdoor distribution cabinet?

Medium outdoor fiber distribution cabinets are often deployed as distribution hubs in medium or large neighborhoods, containing splitters for centralized topologies. The cabinet is configured with centralized splitting. Microducts are laid individually from terminal closures to each individual home.
