

How many Solar Ambassadors are there in the DRC?

We have 3,500+ Solar Ambassadors in our network, working across 22+ provinces. Between them, they distribute 10,000+ products every month. 90% of Congolese people lack access to electricity. We want to see energy poverty eliminated in the DRC by 2030. Our cost effective systems help off-grid customers power a wide range of appliances.

Where is Nuru solar based?

Nuru deployed Congo's first solar-based mini-grid in 2017 and has a 1.3MW solar hybrid site in Goma, the largest off-grid mini-grid in sub-Saharan Africa. Another solar hybrid site in Beni and two in the oriental province (Tadu & Faradje). Nuru was first established under the name Kivu Green Energy in August 2015.

How many people have electricity in the Democratic Republic of Congo?

Goma hybrid solar project in the Democratic Republic of Congo According to the World Bank, only 19% of the DRC's around 102 million people have access to electricity. This translates to about 41% in urban areas and 1% in rural areas.

How many people in DRC have electricity?

According to World Bank data, only about 19 percent of DRC's population had access to electricity in 2019. The project was originally developed by CIGenCo, Greenshare Energy, Greenshare Congo, Volt Renewables, and Nzuri Energy. IFC and Globeleq (as lead developer) have come on board to drive the project forward and help it reach completion.

Will cigenco and nzuri energy build a large-scale solar power plant?

Kinshasa, the Democratic Republic of Congo, November 25, 2021 - To scale up clean energy production capacity in the Democratic Republic of Congo, IFC, Globeleq, CIGenCo, Greenshare Energy, Greenshare Congo, Volt Renewables, and Nzuri Energy have partnered to develop a large-scale solar power production plant in the country.

Will energy poverty be eliminated in the DRC by 2030?

We want to see energy poverty eliminated in the DRC by 2030. Our cost effective systems help off-grid customers power a wide range of appliances. Our cost effective systems help off-grid customers power a wide range of appliances. Our world-class solar lamps are used in homes, schools, businesses and hospitals across DRC.

In collaboration with Nuru, a solar power company in the DRC, the project aims to develop and construct 15MW of solar metro grid capacity across three provinces in the Eastern Congo. The ISA, through its GSF, is supporting Nuru by partnering with the Multilateral Investment Guarantee Agency (MIGA) of the World Bank.

The solar market in Congo is anticipated to grow significantly in 2024, creating a distinctive landscape of opportunities and difficulties for new companies in the renewable energy industry. The Democratic Republic of the ...

The solar market in Congo is anticipated to grow significantly in 2024, creating a distinctive landscape of opportunities and difficulties for new companies in the renewable energy industry. The Democratic Republic of the Congo (DRC), which is renowned for having a variety of natural resources, including mineral wealth and hydropower potential ...

NURU develops and operates commercially-viable isolated solar-hybrid "metrogrids" (utility-scale urban mini-grids) that provide reliable, affordable and clean energy in the Eastern region of the Democratic Republic of Congo.

Our company, CongoSun is proud to be the exclusive distributor of Sunsynk solar products in the Democratic Republic of Congo (DR Congo). Committed to revolutionizing the energy landscape, we offer a complete range of Sunsynk solar solutions for ...
