We rely on a dual pack configuration to achieve the kW outputs on the higher end of our containerized line. Simply put, dual packs are two parallel generators in one ISO container: Two 500 kW generators could be paralleled to achieve a 1000 kW output, or two 625 kW generators to achieve 1250 kW.

The container is with CSC certification, in line with international container security convention, ensures shipping directly as a standard container, and greatly saves the cost of transportation. Generator set series

Choosing our dedicated generator sets for refrigerated containers is the best guarantee for efficiency, reliability and legality on the road. Contact us today to improve the safety and reliability of your cold chain transportation!
