

Who is Coral Energy?

Coral Energy is a trusted nationwide consulting firm offering a broad range of energy efficiency solutions to both public and private markets. Coral Energy provides customized energy efficiency programs for the business sector and specializes in commercial refrigeration efficiency and LED lighting upgrades, with over 15 years of experience...

Can Angola achieve energy self-sufficiency?

Angola has everything it needs to achieve energy self-sufficiency through renewable sources - not only water, but also sun and wind. With these three natural resources, Angola could achieve the transition from oil and gas to renewable energies, and then boost its energy self-sufficiency.

Does Angola need solar energy?

Angola already boasts an impressive renewable energy component in its energy matrix, primarily derived from water resources. However, we recognise the potential for solar energy to complement this matrix and provide essential energy security.

What services does Coral Energy offer?

Coral Energy offers a wide range of solutions and services to serve a variety of businesses and clients. Whether you're a small, local business or a multinational corporation, we can help you reach new levels of success. Get in touch with us today to learn more about our services and what our team can do for you.

Should Angola invest in energy storage solutions?

With the ongoing solar projects under development in Angola with an installed capacity amounting to 500 MW, it is urgent to start thinking about efficient energy storage solutions. What structural challenges must be addressed for Angola to seize its renewable energy potential?

Can Angola deploy pumped-storage hydroelectricity & hydrogen solutions?

Fernando Prioste, CEO of COBA Group, talks to The Energy Year about Angola's potential for deploying pumped-storage hydroelectricity and hydrogen solutions as it develops a robust energy industry and the central role of COBA Group in the country's power arena.

A gas exploration project in Mozambique run by Italy's ENI and Angola's state oil company Sonangol were among winners of awards presented at African Energy Week, held in Cape Town this week. Sonangol was named National Oil Company of the Year while ENI's The Coral South LNG Project was named African Gas Monetization of the Year.

Namibe (Angola), 20 May 2022 - Solenova, a joint venture equally owned by Eni and Sonangol for the development of renewable energy projects, has laid the first stone of what will be Angola's first photovoltaic power plant in Caraculo, in the province of Namibe.

The Caraculo photovoltaic plant will be an important source of electrical power in the Namibe province, from a renewable resource, and will allow the reduction of diesel consumption for electricity generation, thus reducing the emission of greenhouse gases (GHG) and contributing to Angola's energy transition.
