

The measure will contribute to the modernisation of Croatia's energy network, increase the country's and the EU's energy security and accelerate the decarbonisation of the Croatian energy sector.

The aid measure has been approved in favour of energy storage operator IE-Energy to partially finance the battery installations. Taking the form of a direct grant, the measure will cover approximately 30% of capital expenditures.

This project is extremely important because it will contribute to the modernization of the grid and increase the security of energy supply, for both Croatia and the EU. IE-Energy will build the first battery system near Sibenik, ...

The Government of Croatia is preparing EUR 500 million for the installation of batteries for storing renewable energy. Minister of Economy and Sustainable Development Damir Habijan said Croatia is ready for changes in ...
