Elia Group attaches great importance to transparent dialogue with shareholders, investors and other stakeholders. Our reports and results showcase the latest financial developments within the Group. Elia Group's half-year results 2024 - Watch again

System operator Elia wants to boost biodiversity around the future energy island in the North Sea. Based on input from a range of experts, the company has developed seven tangible measures. For example, ledges attached to the outer storm walls will provide somewhere for the black-legged kittiwake, a vulnerable bird species, to rest and breed.

Elia Group is investing EUR12.5 million in SET Fund IV, a EUR200 million international venture capital fund managed by SET Ventures. This capital will be invested progressively over the next 4 years in European start-ups that are developing digital technologies and services and are mature enough to be scaled up.

Elia operates the high voltage grid (30 to 400 kV), featuring over 8.600 km of lines and underground cables across Belgium. Every day, the Elia Group's more than 2,000 professional staff are hard at work moving electricity around the grid. This makes us one of Europe's top 5 transmission system operators.
