

Customized Energy Solutions is at the forefront of competitive energy markets. Established in 1998, CES was created to assist clients in managing the changes in the wholesale and retail electric markets. As the industry restructured, many participants recognized the value of creating sound market rules and staying abreast of market changes.

These recipients mobilized an additional \$900,000 for clean energy solutions in Lao PDR to match the funds provided by USAID. This grant program is part of the Japan-U.S. Mekong Power Partnership (JUMPP) to ...

With hydropower representing a key projected source of growth in Laos, both the Swiss and Lao governments acknowledged the importance of infrastructure sustainability and safe power generation, particularly for communities living downstream of the country's dams.

ASEAN member Laos has plans to increase renewable energy in its power mix, notably solar power buildout. However, it continues to rely on hydropower and coal-fired power plants to generate electricity, complicating both its way forward and decarbonisation plans.

At Custom Energy Consultants we provide custom energy solutions for your business needs. With customer-minded energy solutions, we believe that your needs are as unique as your building. Our woman-owned and family-operated ...
