A project combining gas turbines and battery energy storage system (BESS) technology in the Czech Republic has been put into commercial operation, the largest in the country. Decci Group, an independent power producer (IPP), announced the completion of the hybrid "Energy Nest" project earlier this month (10 July).

That's a cool trick, but not something you want happening in your house while your batteries are in storage! If you have loose 9V batteries not in their packaging, store them sitting upright to avoid accidents. It's also a good idea to get some plastic 9V battery protectors which cover the posts and prevent accidental contact.
