Total power solutions across the globe; 1) Continuous battery backed power for critical AC and DC loads. Industrial DC chargers and UPS systems, switch mode rectifiers, standard AC UPS and batteries are available to provide static standard or bespoke power solutions.

Founded in 1935, Dale Power Solutions is a leading secure power service and maintenance provider, UK manufacturer and supplier of generators and UPS systems. We are one of few standby power providers in the UK who can truly offer the complete secure power solution.

When working on a recent project for a customer requiring additional power on one of its oil platforms, a power supply expert encountered a rather considerable challenge that needed to be overcome. The main electrical power supply to the platform is imported over 40km from a third-party operator's facilities through a 33kV subsea cable link.
