

What are the different types of Deye ESS battery products?

Deye ESS divides battery products into two categories: High-Voltage series & Low-Voltage series. In addition, you can choose trending hot products in the New Arrivals.

Why should you choose Ningbo Deye ESS Technology?

Our meticulous approach to battery technical specifications ensures optimal performance, enabling your clients to maximize their energy storage capabilities. Elevate your product offerings and meet the growing demand for sustainable and efficient energy solutions by partnering with NINGBO DEYE ESS TECHNOLOGY CO., LTD.

What makes Deye ESS a great battery?

At DEYE, technical excellence is our hallmark. Our ESS battery products boast industry-leading efficiency rates, with inverter efficiency reaching up to 97.60% and charging/discharging efficiency of 95.50%.

Where can I find high-quality ESS batteries?

Discover high-quality ESS batteries for efficient energy storage systems at Deye. Explore our range of reliable battery cells for optimal power supply.

How efficient are ESS batteries?

Our ESS battery products boast industry-leading efficiency rates, with inverter efficiency reaching up to 97.60% and charging/discharging efficiency of 95.50%. Our meticulous approach to battery technical specifications ensures optimal performance, enabling your clients to maximize their energy storage capabilities.

Who is Ningbo Deye technology?

After decades of development, Ningbo Deye Technology Incorporated Co., Ltd. turns itself to be large-scale Sci-Tech enterprise, and goes listed on the main board of Shanghai Stock Exchange, possessing a full range of inverter & energy storage products. Looking forward to your consultation!

Reliable Energy Storage Solutions from Deye. With over 20 years of experience in PV systems, Deye Group provides high-quality energy storage products for residential, commercial, and utility applications. Our lithium iron phosphate (LFP) solar battery systems offer safe, long-lasting, and efficient energy storage. Product Features:

Our ESS battery products boast industry-leading efficiency rates, with inverter efficiency reaching up to 97.60% and charging/discharging efficiency of 95.50%. Our meticulous approach to battery technical specifications ensures optimal performance, enabling your clients to maximize their energy storage capabilities.

The Deye MS-G215-2H2(HV) is a cutting-edge 100kW/215kWh lithium-ion solar battery energy storage system designed for commercial environments. This technologically advanced system seamlessly integrates high-performance ...

The Deye MS-G215-2H2(HV) is a cutting-edge 100kW/215kWh lithium-ion solar battery energy storage system designed for commercial environments. This technologically advanced system seamlessly integrates high-performance Lithium Iron Phosphate (LFP) battery technology with Deye's intelligent battery management system (BMS) for comprehensive ...

Deye ESS base in Cixi city of Ningbo. More than 170,000 square meter R& D center, battery pack, BMS, sheet metal processing, and spray factory. Deye ESS has 15,000 sets (100,000 sets before 2025) ESS product capacity per month. Deye ESS product is certified by UL, CE etc. ABOUT DEYE ENERGY STORAGE
