

Can Weibo improve local governance in China?

While most studies of Chinese social media focus on censorship, Weibo is helping to improve local governance in China. Most foreign studies on Chinese microblogs probe patterns of censorship, paying scant attention to how state-society conflicts are neutralized by local governments or how changes are introduced into local governance itself.

Where is State Grid Zhejiang Electric Power Company?

Aerial photo shows technicians of State Grid Zhejiang Electric Power Company checking power transmission lines to make sure the stable operation of local power supply in Zhoushan, east China's Zhejiang Province, Oct. 23, 2020. (Xinhua/Xu Yu)

How does the Community Grid contribute to governance agility?

By incorporating the safety valve theory, we propose that the community grid, the smallest administrative unit in China, functions as an institution to issue pre-emptive warnings, integrate communities, and alleviate pressures during times of crisis, contributing to governance agility.
