

As the leading economy in Central America, the Dominican Republic is home to several solar equipment manufacturers and distributors. They deal in various categories of solar equipment, including solar panels and inverters.

The project helps Dominican Republic to reach its goal until 2025, the year in which they expect 25% of the electricity consumed by the country to come from renewable energies, and has generated more than 500 direct jobs in the region.

Our website hosts several leading solar equipment manufacturers serving the Dominican Republic solar market. Please navigate to our website's inquiry page on your web browser and send us a request for quotes.

EcoDirect designs and supplies solar + battery projects in the Dominican Republic. Our team has the tools and experience to get your next project designed and delivered. Request a Quote!
