

Who is Dulas solar?

As a leader in solar since 1982, Dulas is well-placed to support the successful development of solar photovoltaic (PV) projects. Our experienced solar energy consultant can guide clients through the full development, construction, and operational lifecycle.

Does Dulas offer a technical design & optimisation service?

Dulas offers an in-house technical design and optimisation service for solar PV projects. Solar projects in the subsidy-free era require a design approach that is highly focused on satisfying the underlying business model.

What services does Dulas hydro offer?

We offer a variety of services including wind monitoring, data collection, feasibility studies, repowering and extension advice, helping to ensure that every wind scheme is successful and profitable. The Dulas Hydro team delivers a complete range of services for small to medium sized schemes.

What services does Dulas offer?

Dulas has comprehensive experience of working with major wind farm developers in the UK, Republic of Ireland and internationally. We offer a variety of services including wind monitoring, data collection, feasibility studies, repowering and extension advice, helping to ensure that every wind scheme is successful and profitable.

Is Dulas Life Sciences made in Britain?

We're proud to share that Dulas Life Sciences is now an official member of Made in Britain- official! Made in Britain brings together the British manufacturing community, using the official, registered Made in Trademarks to unite and support the industry. This means that buyers can easily recognise our products as high quality and British-made.
