

The Huawei Backup-Box-B0 single-phase power panel is designed to enhance the efficiency and security of home energy networks, providing a robust backup solution for power outages. This device is optimized to work with Huawei inverters from the SUN2000-2/3/3.68/4/4.6/5/6KTL-L1 range, ensuring broad compatibility and high performance.

Con la Backup Box garantizamos la continuidad del suministro de energí;a durante estos cortes de la red para alimentar los equipos que necesitan mantenerse encendidos (cargas crí;ticas), ya sea mediante las placas solares o mediante la baterí;a.

The Backup Box-B1 is for three phase connections and can provide up to 3,300VA of backup power. Both models automatically detect power outages and switch to backup power in less than 3 seconds to provide reliable backup power.

Technical Specification Backup Box-B0 Backup Box-B1 AC Output (On grid) Grid connection Single Phase Three Phase Rated voltage 220 V / 230 V 380 V / 400 V ... AC Output (Backup) Load connection Single Phase Single Phase Rated voltage 220 V / 230 V 220 V / 230 V AC frequency 50Hz / 60Hz Maximum apparent power 5,000 VA 3,300 VA Maximum output ...

Designed to work in conjunction with Huawei's SUN2000-L1 series single-phase inverters, it enables emergency operation during blackouts. The installation and operation for solar systems are straightforward, thanks to easy communication with the inverter via a digital input.
