

What is sunpok sodium-ion battery?

SUNPOK sodium-ion battery is a new energy storage solution based on sodium-ion technology with many advantages. First of all, compared with traditional lithium-ion batteries, sodium-ion batteries have higher energy density and can provide longer working hours and higher output power.

Who is Guangzhou sunpok energy?

Guangzhou sunpok energy co.,ltd. is a high-tech enterprise integrating battery research and development, design, and production.

How sunpok is transforming the energy industry?

As energy issues become increasingly prominent in today's society, scientists have been sparing no effort to pursue efficient and environmentally friendly energy solutions. In this challenge, SUNPOK has led the way in advanced energy production technology and successfully developed the impressive 48V 100Ah sodium-ion battery.

What are the advantages of sunpok sodium ion batteries?

In addition, SUNPOK sodium-ion batteries also have advantages in cycle performance and fast charging capabilities. It can withstand multiple charge and discharge cycles without affecting battery performance, effectively extending the battery life.
