

The pace of development for solar projects in Kosovo is increasing. There is growing interest from investors to engage in developing new solar capacities across the country. Currently there are roughly 10 MW generated through small-scale solar energy projects. More projects are under development and this capacity is expected to increase ...

RE large solar panels at max count = 43.2 total efficiency. RE upgraded solar panels at max count = 96 total efficiency + an extra 48 watts of free energy. Using a full set of RE upgraded solar panels provides 3.55x the solar energy, plus an additional 48 watts of power reduction, compared to vanilla large solar panels.
