

CAIRO - 21 November 2024: Egypt has signed a Memorandum of Understanding (MoU) with UAE-based Global South Utilities and China's JA Solar to establish two solar energy factories. The signing ceremony, held in the presence of Prime Minister Mostafa Madbouly.

No matter the industry, solar energy is always the right way to go. Our on grid solar power plants will compliment your already existing national grid electricity diversifying your energy mix and making it more sustainable and takes you one step closer to getting your LEED Certificate.

Scatec has partnered with Fertiglobe, The Sovereign Fund of Egypt and Orascom Construction to develop, build, own and operate a 100 MW green hydrogen production facility in Ain Sokhna in Egypt. When the project is fully developed the facility ...

On Nov. 21, Egypt signed a memorandum of understanding (MoU) with UAE-based Global South Utilities (GSO) and JA Solar to establish two solar plants. The agreement will see the construction of two production plants, each with a capacity of 2GW, one dedicated to the manufacture of solar cells and the other to the production of solar modules.

The new facility will focus on producing high-efficiency solar cells and module assembly, with a large portion of the output earmarked for export to key markets, including the United States. This development positions EliTe Solar as ...

Their vision took shape in 2013 with a mission to cover Egypt's deserts with solar panels, offering cost-effective and environmentally-friendly energy solutions to commercial, industrial, and agricultural sectors.

The entire facility will be completed in two phases, with the first phase expected to be operational in September 2025, producing 2GW of solar cells per year with an expected annual revenue of US\$190 million. Approximately 600 jobs will be created.
