

Who is H2 core systems?

Green hydrogen for everyone,everywhere. H2 Core Systems is focusing on the core of hydrogen based energy systems! We develop,manufacture and maintain modularly configurable production,storage and energy systems by combining electrolysis with storage,compression,fuel cells and everything around an H2 based eco-system.

How many kW does H2 core produce?

Since the founding of H2 Core Systems GmbH in 2020,over 7730 kWhave been generated with the help of our systems. Since its founding in 2020,H2 Core Systems GmbH has sold over 200 systems worldwide. Discover H2 Core's modular systems for producing,storing,and utilizing green hydrogen.

How many H2 core systems can be produced a year?

Capacity of series production is expanded to 500 systemsper year. Discover how H2 Core Systems is creating green hydrogen with our modular electrolysis systems. Expandable,scalable, and available everywhere. Start your sustainable journey today!

Who is h2core systems?

H2Core Systems is a spin-off of TC Hydraulik GmbH. The company is also based in Heide and can look back on more than 35 years of experience in fluid technology mechanical and plant engineering. "We have been dealing with systems that work with oils,gases and other substances under pressure for a very long time.

What are the advantages of H2 core systems in Heide?

The core team of H2 Core Systems in Heide (from left): Ulf Jørgensen, Natalie Stærmer, Volker Wittkopf, Thorsten Clawen, Heiko Wunderlich, Alexander Nitsche, Henriette Frohberg, Diana Steffen, Uwe Kötter Another big advantage of the systems is the fact that the customer can put them into operation without help.

Other installation modules, such as a water purification system, compressors, a water tank module and fuel cells with different power levels, are also available for the H2 Core System. The system comes with a cloud based management system, and can be controlled from your laptop, mobile app, via the main panel, Modbus or via external PLC.

Zukunft gestalten: H2 Core Systems GmbH geht eine Partnerschaft mit SYNERGY Partners ein! Wir freuen

uns, eine dynamische Partnerschaft mit Synergy Partners bekannt zu geben! Diese Zusammenarbeit strkt unsere Mission, die globale Wasserstofftechnologie und autonome Energiesysteme voranzutreiben und die Umstellung ...

H2 Core Systems at Hydrogen Technology Expo 2024! Recap of the Hydrogen Technology Expo Europe in Hamburg!. Reflecting on two incredible days at the Hydrogen Expo in Hamburg! From October 23-24, we had the privilege of showcasing our sustainable H2 solutions at Booth 4B45 in Hall A4 and engaging with industry leaders, partners, and visitors who share ...

H2 Core Systems ist ein Spin-Off eines etablierten Spezialunternehmens für Fluidsystemtechnik und hat entsprechende Erfahrungen mit Gasen in industriellen Anlagen und wir legen besonderen Wert auf

vertrauensvolle und ...

We have the customized solution: HydroCab PowerCore™; (Self-recharging fuel cell with integrated fuel cells and electrolyzers) HydroCab PowerCore™; is a complete energy storage system combining the benefits of hydrogen and battery systems. It can be integrated into all existing PV, wind, or hydropower plants, supporting short and long-term energy storage.

H2 Core Systems is a spin-off of an established company specialized in fluid system technology and has corresponding experience with gases in industrial systems. We have been a successful family business for more than three decades and we place high value on trusting, long-term customer relationships, cooperation in partnership, and a strong team.

Die H2 Core Systeme gewährleisten eine hohe Verfügbarkeit und kurze Lieferzeiten auf Basis der Serienproduktion und bieten ein hervorragendes Preis-Leistungs-Verhältnis inklusive Inbetriebnahme, vollem Support und Service. ... Unsere verwendeten Brennstoffzellen von Intelligent Energy kommen in unser H2 Core System integriert werden und ...

H2 Core Systems designs, constructs, and maintains modular configurable electrolysis systems the ideal hydrogen source. The focus is on a green and sustainable future with an efficient, cost-effective, and modular scalable ...
