

Who is Hanwha Power Systems?

Hanwha Power Systems launched its energy equipment business, building on its reliable technology and longstanding experience in gas turbine engines. Since then, we've become a global powerhouse and have delivered more than 7,500 units of air and gas compressors worldwide.

Can I use Hanwha Power Systems outside of Korea?

Hanwha Power Systems makes no representation that materials at this site are appropriate or available for use at other locations outside of Korea and access to them from territories where their contents are illegal is prohibited. You may not use the Site or export the Materials in violation of the laws of Korea and regulations.

Why should you choose Hanwha Power Systems?

In addition, we will grow as a global leader in power and energy solutions by using future engineering technology that helps the green environment. Hanwha Power Systems is a global powerhouse delivering advanced air and gas compressors worldwide with a goal of accelerating the transition to clean energy.

What rights does Hanwha Power Systems have?

Hanwha Power Systems retains all rights to such Services and Materials. Services and Materials are intended only for Hanwha's customers and are provided only for your convenience. Hanwha Power Systems grants you no license or property rights to any such Services and Materials.

What kind of intellectual property does Hanwha Power Systems have?

Hanwha Power Systems has invested money, time, and effort to develop them. Such property includes but not limited to copyrights, trademarks, and information about technology. These are provided in the form of text, graphic, audio, video, downloads, links, or source codes ('Services and Materials').

Why did Hanwha Power Systems sign a memorandum of understanding?

Hanwha Power Systems signed an MOU with Korea Western Power Co., Ltd. for an eco-friendly power generation projects. Hanwha Power Systems signed a memorandum of understanding (MOU) at Hanwha Power Systems R&D Center in Pangyo on November 30th (Thursday).

PSM (headquartered in Florida, USA), Thomassen Energy B.V., (located in the Netherlands), and Hanwha Power Systems, (located in Pangyo, Republic of Korea) jointly serve markets around the...

Hanwha Impact and Hanwha Power Systems announced on Dec. 20 that they have demonstrated full hydrogen combustion by increasing the hydrogen mixing ratio in an 80 MW medium-to-large gas turbine from 60% to 100%.

We are strengthening our eco-friendly power generation business by signing technical cooperation agreements with related companies such as Korea Western Power Company and Korea District Heating Corporation to retrofit gas turbines to run on hydrogen to transition to carbon-free power generation.

The involved entities are Hanwha Corporation, Hanwha Energy, Hanwha Solutions, Hanwha Aerospace, Hanwha Ocean, Hanwha Impact, and Hanwha Power Systems. The presentation took place at H2MEET 2023, an international hydrogen industry exhibition held in South Korea.
