

Who is elemental energies?

Providing a connected engineering approach to global energy challenges. As the leading independent wells expert, Elemental Energies understands what it takes to deliver complex projects across the energy mix.

What is elemental energies doing in the Gulf of Mexico?

Elemental Energies has secured a major master services contract to support the decommissioning of nine orphaned wells in the Gulf of Mexico from Promethean Energy. Archer has awarded Elemental Energies a £10 million (\$12.7 million) contract to support a well plug and abandonment (P&A) project in the UK North Sea.

What makes elemental energies a successful P&A company?

Speaking of the announcement, Mike Adams, CEO of Elemental Energies, shared: "There is a close strategic and cultural alignment between our companies, built around a successful track record of working together on joint projects. For P&A to work, it needs long term and highly efficient solutions.

Are you looking for a senior accountant at elemental energies?

Elemental Energies is on the lookout for an experienced Senior Accountant to strengthen our finance team. If you have a solid accounting background, especially within the energy sector, and are ready to make a real impact in a dynamic environment, we want to hear from you!

When is elemental energies exhibiting at SPE Aberdeen 'well decommissioning & late well life'?

We are excited to announce that Elemental Energies will be exhibiting at next month's SPE Aberdeen conference 'Well Decommissioning & Late Well Life in the Net Zero Era'! Join us between 4th & 5th June to delve into the latest advancements and strategies in well decommissioning and late well life management.

Elemental Energies is providing a sustained and practical approach to emissions reduction. As well as opening up low carbon opportunities for the global energy industry, our technical well integrity expertise drives your ability to ensure ...

As the leading independent wells expert, Elemental Energies understands what it takes to deliver complex projects across the energy mix. By applying our deep, practical experience of delivering complex international drilling programmes we provide a complete engineering solution to decommissioning, oil and gas, carbon capture, utilisation and ...

A practical and responsible solution is required for the challenges of decommissioning and the energy transition. Our engineers are among the most experienced and skilled in the world. Together, they deliver smart and effective programmes to support the energy transition mix and safely decommission assets.

Engineering the energy transition | Engineering the energy transition. We are committed to creating the world's leading wells consultancy, by empowering the...

We provide sustainable and renewable solutions to de-carbonize the economy in the emerging markets by developing and investing in Solar Photovoltaic, Wind, Biomass-to-Energy, Hydrogen and carbon offsetting projects.

Elemental Energies is providing a sustained and practical approach to emissions reduction. As well as opening up low carbon opportunities for the global energy industry, our technical well integrity expertise drives your ability to ensure security of wells infrastructure as ...
