

At Eminent, we see ourselves assisting the efficient energy transition. We are committed to provide more sustainable and cleaner energy solutions in our business. We are active on both mandatory and voluntary carbon markets as well as renewable investments.

Increasing renewable energy. HOW WE'RE TRACKING PROGRESS: Transitioning Guam's energy from imported fossil fuels to renewable sources, supporting Guam residents to integrate household energy efficiency, and updating Guam's Strategic Energy Plan and Action Plan to map a path towards 100% renewable energy by 2045.

The National Renewable Energy Laboratory is working with Guam government and energy leaders to help the island reach its goal of 50% renewable energy by 2035 and 100% by 2045. The U.S. territory depends on expensive fuel oil imports for its power.
