

Roll out time-of-use metering to all residents and businesses leveraging Norfolk Island's new 4G mobile phone network. Introduce the dynamic tariffs using new billing software. Provide solar and energy storage packages to electricity consumers

In late 2021, Incite Energy were appointed to review the operations and systems within the Norfolk Island Regional Council (NIRC) electricity business unit (NI Electricity) and implement changes to transition the island to an electricity grid dominated by renewable energy, allowing electricity tariffs to be reduced.

Norfolk Island is transitioning to renewable energy solutions, using solar and batteries to lower the cost of electricity for all residents. As part of this process, every electricity meter must be replaced. In September 2023, we will begin this process in Burnt Pine and will gradually work our way around the island. What will this mean for you...

The Albanese Labor Government continues to deliver cost of living relief to families and businesses on Norfolk Island, through the Energy Bill Relief Fund. From today, every household will see a \$300 credit automatically applied to their electricity bills and eligible small businesses will receive \$325 off their bills over 2024-25.

As part of the Albanese Labor Government's commitment to reducing cost-of-living pressures, the Energy Bill Relief Fund will soon be rolling out to households and businesses on Norfolk Island. This is the first time that eligible external territories households have been able to access Commonwealth Government rebates.

On Norfolk Island all residents and businesses are benefiting from the implementation of the BESY Energy Platform. The BESY price signal is passed to all electricity consumers and producers, resulting in everyone receiving lower electricity bills.
