

# Energy storage and new energy general worker salary

How much do energy jobs pay?

Based on my research and looking at the best paying jobs in energy below, average salaries range from \$40,000 at the low end to almost \$110,000 at the high end. Now, it's important to understand that these are averages and that, just like in any other industry, how much you earn will depend on a few critical things.

What is an energy storage engineer?

An energy storage engineer is a professional who specializes in the design, development, and implementation of energy storage systems and is without a shadow of a doubt one of the best-paying jobs in power generation.

What is the average hourly wage for Energy Workers?

The median hourly wage for all energy workers in the U.S. is \$25.60- 34 percent higher than the national median hourly wage of \$19.14. In general, energy sector employees across all energy technology sectors and nearly all energy industry segments earn higher hourly wages compared to the national median and other sectors of the economy.

Are energy jobs higher than national wages?

Wages for all energy industry crosscuts are higher than national wages, ranging from a premium of 27 percent to 105 percent above national median wages. Few energy jobs pay below the national median; these jobs earn less because they fall within broader industry or occupational groups that also earn below the national median.

What are the best paying jobs in energy?

And that gap is increasing with some of the best paying jobs now available in wind farms, solar panels, and energy efficiency technologies. Based on my research and looking at the best paying jobs in energy below, average salaries range from \$40,000 at the low end to almost \$110,000 at the high end.

Why is the energy industry focusing on high-paying jobs?

As the U.S. economy recovers from the COVID-induced recession, the emphasis is shifting away from the simplified metric of the number of jobs, toward a focus on high-quality, high-paying jobs. As some service sectors languish with unfilled positions and shorthanded staffing, the energy industry pays premium wages.
