About GEO. GEO is a set of free interactive databases and tools built collaboratively by people like you. GOAL: to promote an understanding, on a global scale, of the dynamics of change in energy systems, quantify emissions and their impacts, and accelerate the transition to carbon-neutral, environmentally benign energy systems while providing affordable energy to all.

Wherever you are on your energy journey towards improving energy efficiency, optimising asset management, improving resilience through microgrid control - Mitsubishi Electric will get you there. Capacity, cost, carbon reduction and resilience.
