

Following the successful acquisition of solar energy frontrunner PEG Africa, Bboxx is now positively impacting the lives of more than 3.5 million people in 10 operating markets, directly contributing to 11 of the 17 United Nations Sustainable Development Goals.

The company distributes solar home systems for households in rural areas. The solar kits not only accelerate access to electricity, but also contribute to the reduction of CO2 emissions, by replacing paraffin lamps with solar energy. Bboxx also ...

Following the successful acquisition of solar energy frontrunner PEG Africa, Bboxx is now positively impacting the lives of more than 3.5 million people in 10 operating markets, directly ...

Rwanda's government aims to meet the electricity demands of 20% of its population with off-grid solar systems, putting BBOXX in pole position to meet these goals. Thus far, BBOXX has installed around 70,000 solar systems across Africa.

25 August 2020: Bboxx, a next generation utility that manufactures, distributes and finances decentralised solar powered systems in developing countries, has launched the bPower20 ...

The newly awarded certification recognizes a diverse portfolio of clean energy solutions, including solar home systems, PAYGO clean cooking solutions, and solar-powered water pumps.

25 August 2020: Bboxx, a next generation utility that manufactures, distributes and finances decentralised solar powered systems in developing countries, has launched the bPower20 product, to make solar energy more accessible at scale.

BBOXX has successfully closed a US\$50 million Series D funding round that will see the next generation utility company accelerate its global expansion efforts. This US\$50 million in funding features a substantial investment from the Mitsubishi Corporation, which led the round.
