

Is biomass a source of electricity in Equatorial Guinea?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Equatorial Guinea: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Did Hello solar deliver what they promised?

Hello Solar delivered what they promised! From the time of acceptance of their quote, everything went through as scheduled. Installation crew were very professional, turned up on time and completed all works efficiently. Correspondence with the energy retailer were copied to us to keep us in the loop. Would not hesitate to recommend Hello Solar!

Is Hello solar in breach of contract?

The completed install was way overdue and Hello Solar were in breach of contract. No apology, just running away as fast as they could with exception of the tech support person. My best advice ... use anyone but Hello Solar.

The government of Equatorial Guinea is installing a self-sufficient solar microgrid project in Annobon Province in partnership with three American companies: the consulting firm MAECI Solar, GE Power & Water ...
