

Will expanded oil reserves boost Gabon's energy resurgence?

Expanded oil reserves will not only enhance Gabon's significance on the global energy stage, but also contribute towards achieving energy security and new revenues for the country. Gabon's oil and gas resurgence is being driven by a recent offshore discovery, production increases from existing assets and an ambitious Gas Master Plan.

What are the main sources of energy in Gabon?

(October 2009) Energy in Gabon comes from two main sources, fossil-fuels and hydroelectricity. Gabon also relies heavily on oil for its export revenues, exporting both crude oil and petroleum. In terms of its oil reserves, the country is one of the richest in sub-Saharan Africa, ranking 5th after Nigeria, Angola, Sudan, South Sudan, and Uganda.

What is happening in Gabon's upstream resurgence?

**Recent Discoveries and Production Increases** A recent milestone in Gabon's upstream resurgence is the offshore discovery made by BW Energy and Panoro Energy at the DHBSM-2P pilot well on the south extension of the Hibiscus South field.

Does Gabon have a resurgence in oil & gas?

Gabon is currently witnessing a resurgence in its oil and gas sector, catalyzed by a recent offshore discovery and a series of production start-ups led by key industry players.

How much oil does Gabon have?

The discovery, with estimated gross recoverable reserves of 5-6 million barrels of oil and approximately 14 million barrels of oil in place, underscores Gabon's untapped hydrocarbon potential within existing assets.

What does BW Energy's dhbsm-1h well mean for Gabon's oil production?

Additionally, BW Energy's recent start-up of the DHBSM-1H well in the Hibiscus South field exemplifies Gabon's oil production capabilities, with output stabilizing at around 5,000-6,000 bpd and an expected recovery of 6.6 million barrels of the 22 million barrels of oil in place.

Gabon: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO<sub>2</sub> - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Asokh Energy (site de Ngoulmendjim - 73 MW), une centrale hydroélectrique située sur la rive Komo, pour l'alimentation de Libreville ; Louetsi Energy (15 MW), une centrale hydroélectrique au fil de l'eau située à 450 km de la capitale sur la rive Louetsi, pour l'alimentation du Sud-Ouest du pays, sur le site de Dibwangui.

Energy Vision to introduce Hybrid Power Systems in Gabon with Flexenclosure's eSite. Flexenclosure, a Swedish designer, and a manufacturer of prefabricated modular data centre buildings and environment-friendly hybrid power systems has been chosen to help introduce the eSite power systems for the ICT industry by Energy Vision.

Gabon's government has shown a strong commitment to renewable energy in its policies and initiatives. By 2025, the government hopes that renewable energy in Gabon will account for 100% of the country's energy. Gabon plans to boost this with major infrastructure projects such as the Grand Poubara Dam, at a cost of more than \$190 million.

WTS Energy est un partenaire précieux pour l'industrie de l'énergie au Gabon, fournissant des services de recrutement, d'ingénierie et de gestion de projet qui soutiennent la transition énergétique du pays et le succès continu du secteur pétrolier et gazier. Avec le soutien de WTS Energy, le Gabon est bien placé pour atteindre ses objectifs en matière d'énergie et fournir une ...
