Services Overhead line- In Eswatini, overhead electrical service is the most popular method of ...

Passive solar design takes advantage of a building's site, climate, and materials to minimize energy use. A well-designed passive solar home first reduces heating and cooling loads through energy-efficiency strategies and then meets those reduced loads in whole or part with solar energy. Because of the small heating loads of modern homes it is very important to avoid ...

Established in 2000 to support the development of the arts in Eswatini, House On Fire is lauded as one of the most eclectic entertainment and events venues in the world. A continuously evolving architectural fantasy-scape located in the scenic Malkerns Valley of Eswatini, this iconic space hosts large-scale performances, customised events, conferences, workshops and intimate ...
