The Project is a stand-alone mini-grid which consists of a centralised 35kW solar PV generation plant complete with 200kWh battery storages system and an AC LV reticulation network designed to service about 26 rural homesteads through an advanced smart metering system for billing.

Greenlight Solar delivers reliable renewable energy solutions in Eswatini. We specialise in designing and installing custom solar systems for homes and businesses, with a focus on quality, efficiency, and sustainability.

EEC has constructed a 10MW Solar Photo Voltaic (PV) Plant in Lavumisa at Qomintaba, which is positioned to respond to Eswatini's Sustainable Energy for All (SE4ALL) initiative that aims at increasing renewable energy generation in the national energy mix to 50% by the year 2030.
