

Who is evergreen solar?

At Evergreen Solar, we are passionate about transforming the way we power our lives by harnessing the boundless energy of the sun. We are dedicated to delivering cutting-edge solar solutions with a commitment to environmental stewardship and energy efficiency. Your peace of mind is our top priority.

Will a 100 MWAC solar farm in DR Congo get a credit line?

A 100 MWac solar farm planned in the Katanga region will be boosted by an additional credit line after the International Finance Corporation and the British and Norwegian government-owned Globeleq came on board. The International Renewable Energy Agency has estimated DR Congo had only 20 MW of grid-connected solar capacity a year ago.

Why should you choose Evergreen Solar?

The energy revolution has begun! At Evergreen Solar, we offer a comprehensive suite of services designed to empower you with clean, sustainable energy solutions. From solar panel installations to cutting-edge battery storage and electric vehicle (EV) charging installations. Why Choose Evergreen Solar?

Is Nuru the world's largest off-grid solar metrogrid?

Nuru was the first company in DRC to deploy a solar mini-grid, built the largest fully off-grid solar hybrid metrogrid in Sub-Saharan Africa in 2020, and is now seeking to provide 5 million clients with world-class connectivity in the country.

A consortium led by UK power infrastructure investor Gridworks signed three concession agreements with the government of the Democratic Republic of the Congo (DRC) to deliver the Eссор Access to Energy (A2E) project, an initiative to bring solar-hybrid off-grid generation to three cities in the Central African nation.

We designed and facilitated the process that will bring affordable, green energy to half a million people in the Democratic Republic of Congo (DRC), boosting economic growth and reducing carbon emissions. The African Solar Industry ...

Solar developer SkyPower Global has signed a Joint Development Agreement with Africa Finance Corporation (AFC) that will catalyse the construction of the 200-MW first phase of the Green Giant project in the ...

We designed and facilitated the process that will bring affordable, green energy to half a million people in the Democratic Republic of Congo (DRC), boosting economic growth and reducing carbon emissions. The African Solar Industry Association described it as "probably the largest [solar] mini-grid project in the world".

London, 3 March 2023: Nuru SASU (Nuru), the company behind Democratic Republic of the Congo (DRC)'s

first solar PV metrogrid, is on track to build 13.7MWp of isolated solar-hybrid grids by mid-2024 after securing an initial ...

India's Soleos Energy, in partnership with Melci Holdings, has started building a 200 MW solar park in the Democratic Republic of the Congo (DRC). The project is set for commissioning by late...

London, 3 March 2023: Nuru SASU (Nuru), the company behind Democratic Republic of the Congo (DRC)'s first solar PV metrogrid, is on track to build 13.7MWp of isolated solar-hybrid grids by mid-2024 after securing an initial USD1.5 million from investors in a convertible note round ahead of the close of its Series B funding round.

Indian renewables developer and builder Soleos Energy and a partner specialising in electrical engineering, namely Melci Holdings, are getting ready to commence construction of a 200-MW solar photovoltaic (PV) plant in ...

A 100 MWac solar farm planned in the Katanga region will be boosted by an additional credit line after the International Finance Corporation and the British and Norwegian government-owned...
