

Exergy Energy is a company that provides energy solutions for the commercial and industrial sectors. It offers energy management and brokerage, procurement, backup power-as-a-service, facility electrification, and other services.

As owner of the asset, Exergy is responsible for the capital investment, service and maintenance and managing participation in grid programs. Exergy Energy earns substantial ancillary revenues by participating in grid-sponsored programs, such as demand response and synchronous reserves.

In unregulated electricity markets that cover over 70% of our nation's electricity consumers, Exergy will help your organization procure 100% of its energy from the lowest-cost utility-scale renewable and zero-carbon sources from around the country.

Exergy provides energy as a service, energy management and energy brokerage services to help our customers meet their energy and sustainability goals. Our Backup-as-a-Service offering as well as our energy efficiency improvements, require no upfront CAPEX.
