

Could the Falklands become an energy powerhouse?

The Falklands might seem an odd candidate to become an energy powerhouse. The likely presence of commercial quantities of oil has been known for decades, yet successful development has always seemed improbable. The Islands were too remote, the weather too inhospitable, the cost too high. Now, however, the odds are shortening.

Does Britain's path to energy independence spark new interest in the Falkland Islands?

Britain's path to energy independence sparks new interest in the Falkland Islands. Here is a fresh look at a subject that I already uncovered in 2004.

Does the Falklands need a new wind farm?

But the Falklands feel it is not enough and besides the current wind farm is reaching its renewal date. No wonder then that notice has been given of the planning applications submitted for the Farm Expansion of Sand Bay Wind Farm to include 3 by E70 Enercon wind energy converters and battery storage. FIG and c/o Glenn figure as the applicant.

What happened to MercoPress Falklands power station?

MercoPress Falklands New Power Station project in Stanley to begin, end of unplanned power cuts? The current Power Station is nearing the end of its life and the replacement has been a key priority for numerous Assemblies.

Where can I find a plan for the Falkland Islands?

FIG and c/o Glenn figure as the applicant. The plans and details can be viewed at the Planning Office, Secretariat, Stanley and on the Falkland Islands Government Planning & Building Services Facebook page. Anyone wishing to comment on these applications must do so in writing, to the Planning Officer, by 2 February 2024.

When will Navitas enter the North Falkland Basin (NFB)?

Afterward, the three players signed legally binding definitive documentation in April 2022 concerning Harbour exiting and Navitas entering the North Falkland Basin (NFB).
