

Faroe Islands solar companies that rent your roof

Are there renewables in the Faroe Islands?

"In the Faroe Islands, we are blessed with renewables: we have wind, hydro and some sun in the summer; we also have tidal and wave power where we can see great potential," says Nielsen. Since announcing its green vision in 2014, SEV has already done a lot to increase the share of renewables in its energy mix.

Should you invest in a solar roof?

In this case, an investment of this magnitude is not advisable. Nevertheless, there is an easy way for these companies to exploit the solar potential of their roof area - by leasing their roof to ENVIRIA. It's uncomplicated and worthwhile: you rent out your roof to us and we install a PV system that we operate and maintain ourselves.

Can the Faroe Islands be a smart microgrid?

"The energy system in the Faroe Islands is an impressive example of how all available energy resources can be integrated into a smart and innovative microgrid," says Vehkakoski.

Should you rent out your roof space for a solar system?

Renting out your own roof space for the operation of a solar system offers the owner a lucrative secondary income stream. We operate the system and feed the electricity into the grid receiving a remuneration for the sale of energy. The roof owner can benefit by renting out his roof space without having to invest himself.

Why do you need a solar roof?

With a solar roof, you can reduce your electricity costs. In the summer months, you can even be self-sufficient if you combine your solar panel system with a battery. This makes you independent of the power grid because you can use your own production instead of buying.

Will the Faroe Islands use more green energy in 2025?

Even more conservative scenarios predict that the Faroe Islands' current electricity consumption of approximately 350,000 MWh per year will increase to approximately 450,000 MWh in 2025. "The current discussion recommends using more green energy and especially the potential for wind energy is quite high," says one of the islanders.
