Merus &#174; ESS is a high-power, fast-reacting, and reliable lithium-ion-based battery energy storage system fully designed and manufactured by Merus Power. We are a Finnish leader in the energy storage solutions sector, specializes in the manufacturing and system integration of Battery Energy Storage Systems (BESS).

This changing supply-demand dynamic makes the Finnish market one of Europe's most volatile energy markets right now. The volatile market provides attractive earning possibilities for BESS operators. For example, Finnish investment company Exilion achieved 40,700EUR/MW/month in the second half of 2023.
