

Who is Firefly energy solutions?

Website design by Up in a Day(TM) Firefly Energy Solutions is an analytical SaaS platform created by energy experts who are committed to accuracy, transparency, and efficiency. We compile big data to deliver reliable solutions to our volatile and ever-evolving industry. Our innovative technology seamlessly integrates with your operations.

What is Firefly & how does it work?

Firefly is an analytical SaaS platform created by energy experts who are committed to accuracy, transparency, and efficiency. We compile big data to deliver up-to-date and reliable solutions to our volatile and ever-evolving industry. Our modular platform ensures your operations continue as you intended -- only better.

What is Firefly battery technology?

Firefly revolutionary battery technology was originally developed at the Research and Development laboratory of CATERPILLAR, Inc., a world-renowned manufacturer of heavy equipment, with significant internal investments and funding from major financial institutions.

Is a Firefly energy efficient?

Our team brings expertise in all verticals we serve. "A Firefly is the most energy efficient producer in the world. While an average lightbulb emits 50% to 90% heat to produce light, a firefly produces nearly 100% light with no heat loss. At Firefly Energy Solutions, we take this analogy and aim for that type of efficiency.

What makes firefly unique?

Firefly is the result of our deep vertical understanding of load forecasting, pricing, risk and asset management, energy analytics, running operations, M&A, financing, among others. We consider every detail because we appreciate how small details shape significant solutions.

What is Firefly carbon foam?

That's why we used it to create our revolutionary Firefly MCF battery. Firefly carbon foam design resists sulfation and corrosion (two of the primary causes of failure in lead acid batteries), while dramatically increasing the surface area within the battery, resulting in greater energy capacity, faster recharges, and deeper discharge capability.

An accomplished leader, his vast knowledge and guidance drives Firefly Energy to become an ever-enterprising company. Testing Manager - Rob MacDuff. Rob MacDuff, Sr. Battery Development Engineer at Firefly, is a Technology Specialist with 24-years of diversified experience in an engineering and R&D environment encompassing laboratory ...

Firefly International Energy is a company that develops lead-acid battery technologies. It offers carbon and graphite foam-based battery technologies with Microcell Carbon Foam that increases energy efficiency, and performance. The batteries can be applied in PV solar, wind, hybrid gensets, telecom, marine and transportation.

I used Firefly Energy to install a 17.6 kW SunPower Solar system at our home in Tustin, CA. Jarrod at Firefly Energy is a SunPower Elite dealer that sold us the SunPower system at a very competitive price. Then Jarrod worked with us every step of the way as the SunPower team took over the project and sent their crews to complete the installation.

Discover how Firefly Energy can help you save money on your electricity and gas. Our team will analyze your current usage and find the best plan to fit your needs. Switch today and start saving. meet our team. Become a Partner. Firefly Energy is seeking collaborative partnerships with teams like yours! Together, we can leverage our expertise
