The Energy Cube CS2900 offers exceptional electricity storage performance, allowing you to collect surplus energy from renewable sources such as solar panels or wind turbines. This allows you to use the stored energy when you need it most, helping you lower your electricity bills and increase your energy independence

The Energy cube is a high-performance, scalable battery storage system. The modular design allows for maximum flexibility, making it suitable for a broad range of storage applications. Additional batteries can be installed in series, allowing ...

As promised, I have created one document with pictures and detailed steps on how to carryout Energy cube upgrade. Let me know if this is fine and feel free to distribute. Many thanks, Prasanna
