

Is Franklin home power a good solar system?

Since its debut in early 2022, the Franklin Home Power system has been very well received by homeowners and industry professionals. Most notably, it's receiving high praise from the solar installers who actually install, monitor, and service home batteries.

Are Franklin batteries compatible with other energy products?

Being fully compatible with other energy products like solar panels and even backup generators, the Franklin battery is a one-stop shop for all of your family's home energy needs.

Is the Franklin home power system compatible with solar inverter brands?

The Franklin Home Power system is definitely compatible with major solar inverter brands like Enphase and SolarEdge and we have yet to come across an instance of incompatibility. Now that we know what's included in the FHP system and how much it costs, let's take a look at what makes this an attractive energy storage option.

Is Franklin home power a good battery system?

In AC-coupled battery systems like Franklin Home Power, efficiency tops out at around 90% because the current has to be inverted on its way into the battery and on its way out. With that in mind, the aPower's round-trip efficiency of 89% is on par with its peers. The FHP system can operate in three different modes.

Are Franklin home power systems safe?

Using extremely safe LFP battery, the Franklin battery system is safe and reliable with a 12-year warranty. The FranklinWH smartphone app, available on iOS and Android, allows you to monitor and control your Franklin Home Power system anytime, anywhere. You can select from various available energy-saving consumption modes.

How does a Franklin battery work?

When energy costs are at their highest during peak times for energy usage, the Franklin battery can distribute reserved power from your solar system to any part of your home, whenever, wherever. Let's not forget about options like Smart Circuits, where customizing your power usage is in the palm of your hands.

FHP integrates and connects solar, grid, battery, generator and electrical loads (EV charger, air conditioner, etc.) to create a complete energy system that is efficient and powerful, and allows you to effectively control your energy production and consumption.

And just when we thought there were enough solar battery brands out there, FranklinWh came up in 2019, offering a cutting-edge solar battery with some cool features. Let us step closer and take a good long look at what the FranklinWh battery has to offer, and if it is able to beat established icons like the Tesla Powerwall.

FranklinWH solution is an open and robust home energy ecosystem that integrates solar, battery, grid, generator and EV power sources, providing power backup during outages, peak periods, or even when you want to be off-grid 24/7.

Franklin Home Power integrates solar, grid, battery storage, and generator, to maximize your solar ROI and increase energy efficiency. You can monitor and manage home energy generation and consumption in real time through the FranklinWH App.
