

Free delivery for solar photovoltaic panels

Does the Department of energy offer free solar panels?

The Department of Energy and the Solar Energy Technologies Office have got you covered! The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested.

Are solar panels free?

You may see some solar panel companies advertise their panels as "free" or "no cost." In most cases, these companies are describing a solar lease or solar power purchase agreement (PPA) type of program. Under these agreements, the company installs solar panels on your roof or property for no upfront to you; hence, the "free" terminology.

Are "free" solar panels a scam?

However, it's important to note that "free" solar panels are not always a scam, but they do require careful consideration. These "free" solar panels are typically offered through solar panel leases or power purchase agreements (PPAs), which allow individuals to install solar panels without the high expense.

Can free solar panels bring you in on a deal of lifetime?

Sunlight is one of the most widely available resources on the planet. With recent investments and advances in solar energy technology, more Americans than ever before can harness the sun's rays and power up their homes and businesses. Riding this historic trend, some are even claiming they can bring you in on a deal of lifetime: free solar panels.

Are "free" solar panels a good idea?

The concept of "free" or "no-cost" solar panels really is too good to be true. "Free" solar panels are essentially rented from solar companies. While you will reap the benefits of cheaper electricity bills through solar power, you do not own the panels; the solar company does. Once your lease agreement is up, the panels will be removed.

How do I get the best price for a solar system?

Tax incentives and flexible financing options ensure you get the best price for your solar system. Power your home with emissions-free, renewable energy directly from the sun. You may qualify for federal, state and local tax incentives that can help cut your installation costs.
