French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

A battery storage component of 550 kW/250 kWh is planned to be installed at the site, as well, Voltalia said. At present, the French firm owns three solar, two biomass and one hydropower plant in French Guiana, plus some 30 MW of energy storage facilities.

French renewable power producer Voltalia SA (EPA:VLTSA) said today it has brought online a 5.1-MW biomass plant in French Guiana. The so-called Cacao facility, located in the commune of Roura, was designed and ...

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", combines a five-megawatt photovoltaic power plant with a lithium-ion battery storage facility with a capacity of 5 megawatts and of 9.3 megawatt-hours.

The BLF51-5 LV battery system is ideal for new installation of household energy storage. With high energy density and wall-mounted solution, BLF51-5 LV battery system is space-saving for indoor and outdoor installation.

The 5.12 kWh Lithium battery is a beautifully designed solar wall battery, favored by solar installers for its ultra-thin cell thickness (<9cm), hence its catchy name - PowerLine. based on 48V 100Ah reliable and practical LiFePO4 batteries. Each battery weighs only 50 kg, so installing them is as easy as 1+1=2!
