French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

French RE developer Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely by the company, the hybrid project is claimed to benefit from a guaranteed sales price for 20 years.

The brand new 10MW/11.3MWh battery energy storage system (BESS) is shipped today from Entech smart energies facilities to its sunny French Guiana final destination. Entech smart energies is extremely proud to have been selected by Voltalia to deliver what is known today as the French largest battery storage system.

The project, sited at one of the vertically integrated energy company's refinery sites in Flandres, Dunkirk, now hosts 27 containerised battery storage systems supplied by Saft, using 2.5MWh units of the energy storage ...
