CEOG is an innovative multi-megawatt power plant designed to produce reliable and clean electricity. CEOG will provide cheaper and firm power all year long, day and night, to 10 000 homes in Western Guiana. Combining a photovoltaic plant and mass storage of energy in the form of hydrogen, CEOG is the alternative to a classic diesel power plant.

We are committed to making a positive impact beyond trading in the communities where we operate. To this end, we use a rigorous approach to managing Health, Safety, Environment and Community risks both in our deliveries and our partnerships. Therefore, we consistently and coherently implement relevant policies and encourage our business partners to align with ...
