Welcome to Fronus Solar Energy - your global partner in renewable solutions. Pioneers in the solar industry, we empower sustainable futures worldwide through cutting-edge tech and collaborations, lighting up the world with clean energy.

The Fronius Symo GEN24 10.0 Plus and BYD Battery-Box Premium HVS 10.2 also impress in the 10-kWp category with an SPI of 94.7 %, placing them in 2nd place. With the Fronius GEN24 Plus hybrid inverters, Fronius is thus the only company to achieve efficiency class A in both categories.

Taking your energy supply into your own hands? Saving money and protecting the climate? Yes, it is possible! A photovoltaic system provides renewable energy for your home. At a basic level, you need energy for the following three areas: - Current: For powering domestic appliances - Heating & cooling: Heating and air conditioning
